AVAVA™ IS MORE THAN A LASER.

AVAVA™ creates an intelligent treatment experience—bridging technology and care with tools that support personalized communication, advanced imaging, and real-time insights to guide your journey.

AVAVASite™ is a built-in imaging platform that allows your provider to clearly see the unique characteristics of your skin to customize your specific treatment plan.

MyAVAVA™ is your personal patient portal, seamlessly connecting your treatment plan, your progress and your skincare provider, to ensure you receive the personalized treatment you need.

HEAR FROM AN AVAVA™ PATIENT

"I am so amazed by the results I've experienced! I was starting to notice drooping in my lower face and jawline and texture concerns around my mouth, so my doctor recommended the AVAVA™ laser. I saw results after just 1 treatment and now, after 3 treatments, my skin feels firmer*, looks smoother, and my jawline is much more defined! The procedure was quick and relatively painless with hardly any downtime. AVAVA™ helped me feel more confident and youthful—this treatment has been life changing!"
